EVEREST

COLOUR METAL ROOFING

Anticapillary Groove

EVEREST INDUSTRIES LIMITED

Since 1934, Everest has pioneered roofing solutions in India and has experience of over 1 billion sq. mtr. of roofing. With high precision roll forming and component forming machines, you can be assured about the quality, reliability and integrity of Everest Colour Metal Roofing sheets. These sheets are available in Galvalume (Bare and Coloured) Iron. These are available in a wide range of aesthetic colours for roofing and wall cladding. These roofing sheets also have excellent anti-corrosive and weather-resistance properties, thereby ensuring low maintenance and long durability of the roofing system.

ADVANTAGES OF EVEREST METAL ROOFING

- **HIGH STRENGTH:** The double ribbed profile gives a very high strength of 550 MPA.
- **DURABLE:** The 4 layers of protective coating make them highly durable.
- **CORROSION RESISTANT:** The corrosion resistant primer coating on the top makes them corrosion resistant.
- **BEAUTIFUL:** Variety of exotic colours available.
- **LEAK PROOF:** The anti capillary groove makes them leak proof.
- **LIGHT WEIGHT:** These sheets are light in weight.

PROFILE

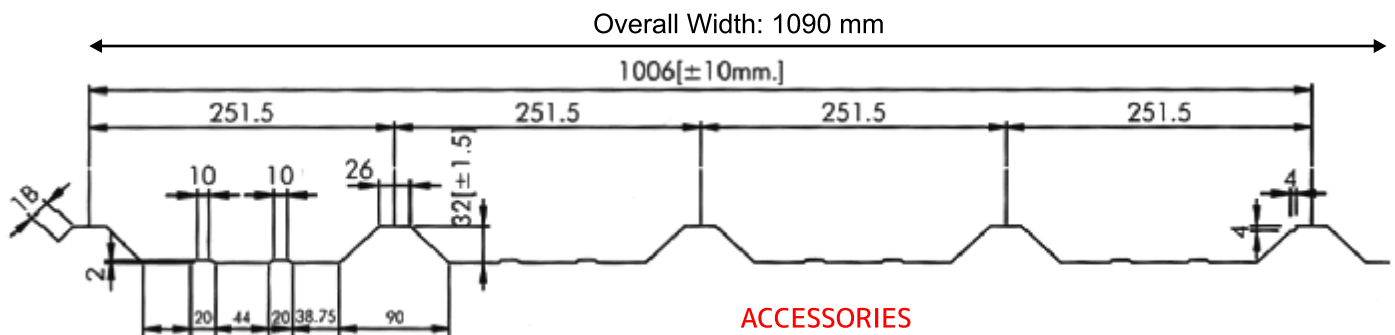

ER 32-251 is the new age, innovative solution that suits the needs of every kind of customer. The depth of 32 mm and the Anti Capillary Groove make it leak proof. Even extreme weather conditions do not affect the performance of these high quality Everest colour metal sheets.

TECHNICAL DATA

- Overall width : 1090 mm
- Cover width : 1006 mm
- Pitch : 251.5 mm
- Profile Depth : 32 mm
- (Tolerance of +/- 10 mm)
- Thickness : 0.45 (TCT)
- Strength : GL 550 MPA as per AS:1397
- Length : 2440mm, 3050mm, 3660mm, 4270mm, 4880mm
- Colours : Brick Red, Sky Blue, Off-White, Royal Green & Silver

* On specific requirement, we also provide sheets with other thickness, colour and length upto 12 meters. Sheets are also available in Pre-painted Galvanized Iron.
