

BEAUTY & DURABILITY

Everest presents Cement Planks! Now enjoy the rich aesthetics of wood with the fortified strength of cement! Facilitating myriad applications across external and internal spaces, Everest Cement Planks allow you to remain committed to both your budget and the environment.

1. Everest cement Planks render the exterior and interior surfaces of a boutique resort in Nainital
2. Exterior finish for a Residential building in Bengaluru
3. Facade cladding for a building in Indore

PRESENTING **EVEREST CEMENT PLANKS**

Attractive and durable, Everest Cement Planks are manufactured in our ultra modern plant using state-of-the art Hatschek process. Available in different sizes and primed form, these give the appearance of wood without the usual flaws and knots!

From exteriors to interiors across commercial to residential, Everest Cement Planks accentuate your spaces through canvases of elegance and endurance.

Everest Cement Planks.

Looks like Wood. Works like Cement.

Burma Teak

Golden Beech

Walnut

Primered

INSPIRATION TO DESIGN!

With the use of fibre cement formulation, Everest Cement Planks resist termites and moisture, do not rot or deteriorate and provide long-lasting strength. These also provide outstanding weatherability with low maintenance.

Available in a thickness of 7.5mm and sizes 225 x 3000mm/ 1200 x 600mm, Everest Cement Planks come in smooth and textured finishes such as Burma Teak, Golden Beech and Walnut. These are pre-primered and can be used for exterior & interior walls along with eaves & soffit linings to suit your imagination!

4. Ceiling Detail from the outdoor lobby of an upmarket residential complex
5. Office exteriors for a Multi National corporation

6.

7.

“Design is not just what it looks like and feels like. Design is how it works.”
- Steve Jobs

SUPERIOR ATTRIBUTES, SUPERIOR COST ADVANTAGE

With strong attributes, Everest Cement Planks exhibit a superior cost advantage over wood and veneer products thus giving people the experience of wood without its expense! The above table gives details of how these planks score high on design but within your budget!

An eco-friendly alternative to natural wood, Everest Cement Planks are preferred by leading architects and designers to shape inspiring designs with responsibility to the environment.

- 6. Exterior finish of a residence in Mysore
- 7. Exterior facade cladding of a residential building in Ludhiana
- 8. Exterior cladding of a villa in Mumbai
